

A photo sharing task called “Mon petit plaisir” was a new theme for an image sharing activity (a routine) which had proved popular the year before. Students were asked to share a picture which illustrated something they find relaxing or restorative. Images submitted through the forums or shared on Instagram with the #monpetitplaisir hashtag included activities (such as walking in the countryside, cooking a new recipe) and favourite people, animals and objects (such as my dogs, my niece, a cup of tea). These were collected into a playlist and votes collected for them in EWC.
